

LEIC-BSC Native Tree & Plant Sale

The Lake Erie Islands Chapter of the Black Swamp Conservancy (LEIC-BSC) is now taking orders for native trees and plants as a fundraiser for our land protection and education programs.

Trees: All native trees for sale are sold in 3 gallon containers and range from \$25 (1-2' tall) to \$40 each (3-6' tall). The 10 varieties available are White Oak, Chinquapin Oak, Northern Red Oak, Swamp White Oak, Bur Oak, Kentucky Coffee Tree, American Sycamore, and Boxelder. All these trees are native to the islands and will thrive in this environment. They have been grown from Ohio seed stock by Riverside Trees in Delaware, Ohio.

Plants: LEIC-BSC is also selling over 40 varieties of native perennial plants and flowers from the Naturally Native Nursery in Bowling Green, Ohio. An order form is attached and is also available at www.lakeerieislandsbsc.com. In addition, all families of students at Put-in-Bay School will receive order information sent home with their child from school. Beautify your yard and support the Lake Erie Islands Nature and Wildlife Center.

Plant orders may be placed until May 1 and your order can be picked up on May 14 at the Lake Erie Islands Nature and Wildlife Center during the Plant Exchange Program. Tree orders should be placed by April 15 and will be available by May 1. Arrangements will be made for tree pickup. For those on Middle Bass, a pick up here can be arranged.

If you need ordering information, order forms or have any questions, please contact Susan Byrnes at 419-285-2306.

Native Tree and Plant Order Form
